History: This message has been forwarded.

Do you know who was feeding Larry Teller information for the Dimock activities listed on <http://www.epa.gov/aboutepa/states/pa.html>? (Screenshot below.)

We're going to be taking the activities sections off of our states pages because of the maintenance required. (Activities are optional.) Unless someone feeds me updates, I think we should also take Dimock activities off.

Your thoughts? Thanks.
